eyePIX S2 Digital Iriscope

The **eyePIX S2 Digital Iriscope** is ideal for the traveling and space conscious practitioner. Small and lightweight this Iriscope is easy to move around in its own professional carry case. It offers up to 10 Megapixel images and combined with our fiber optic lighting and iridology lens gives excellent results.

Features

- **Canon SLR Digital Camera** – captures images up to 10 Megapixels
- Specially designed lens for Iridology – Excellent for brown irides
- Plugs straight into PC's USB port for easy image transfer
- Dual **fiber optic** cable with **Halogen** light source, high/low intensity adjustment, cold light minimizing eye irritation, precise day light illumination
- **Xenon flash** (built within the Halogen light source): for more precise exposure
- Adjustable Medial and Lateral positioning of lighting
- Travel-Lite Iridology Stand: light weight, small (only 8.25 in. width x 11.75 in. length x 14.75 in. height), dual rack and pinions and sliding block for smooth precise XYZ movement, comfortable ergonomic fold-down headrest
- Dark Hood + Legs for stand + durable, waterproof, airtight Carry Case
- Iridology Station 5.1 is included at no extra cost – a \$500 value! This is the world's premier Iridology Assessment software with Dr. Pesek's Holistic Iridology® topographic chart overlay.

Investment: \$5,990
