

## SYLLABUS

### Dr. Pesek's Intermediate Holistic Iridology®

#### Level II • 4-Day Distance Education Seminar • High-Definition Online Recordings

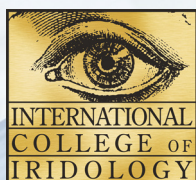

The in depth, Level II study program brings the student to a functional competency in the utilization of the Holistic Iridology® system for making assessments. Studying and learning online gives the student a feeling of being in the classroom with Dr. Pesek. Due to the intricate concepts taught in this course, it is a prerequisite for the study of Level III. Upon successful completion of the final assignment and written exam, the student will receive a certificate for the study of **Intermediate Holistic Iridology®**.

### What You Will Learn in Level II

- In-depth introduction to learning Dr. Pesek's unique evaluation system of Holistic Iris Analysis
- In-depth understanding of the Chart of Holistic Iridology® and the interrelationship of the structures and systems of the body
- German constitutional typing and sub-typing with related diathesis, from a physical perspective
- Dr. Pesek's constitutional typing and sub-typing with related thought and emotional patterns
- The influences of DNA memory and frequencies seen in the eyes going back generations
- Thoughts and emotions related to each specific endocrine gland
- The 18 Brain Reflex Areas of Holistic Iridology® and related conscious and subconscious thought/emotional patterns of heredity
- The four primary brain areas that reflect the human condition of seeking integration with the Divine
- A holistic perspective on 36 fundamental signs in the iris, sclera, pupil, cornea and conjunctiva
- Iris signs for early assessment of conditions and accumulations in body tissues for prevention
- How to properly and ethically express to a client what is being seen in their eyes without diagnosing
- Metabolic pigments and their relationships to the various organs and their condition of health
- Various lacuna structures and their significance relative to physical, emotional and thought patterns
- Understanding the zone map and regions of the iris
- Detailed meaning of conditions and accumulations in the external eye or anterior segment
- How to use the eyes to interpret the interrelationships of the organs, glands, thoughts, and emotions to conscious and subconscious "belief systems" or "illusions"
- More information on natural treatments from a holistic perspective
- Transversal vessels and aberrant trabeculas indicating tissue health, thoughts and emotions
- Brief introduction to signs in the sclera • Fun facts about the human eye
- Deeper aspects of how eyes reveal thought and emotional patterns of personality
- Further understanding of nutritional requirements through analysis of the eyes
- How to use a rating system to create a clinical, holistic iris analysis without diagnosing
- Iridology textbooks and related educational materials are reviewed

### Materials for Level II

- Total of 27 hours of lecture and demonstration
- Study manual to support lecture material • Written exam used as a study guide
