

SYLLABUS

Dr. Pesek's Advanced Holistic Iridology®

Level III • 5-Day Distance Education Seminar • High-Definition Online Recordings

The intensive Level III study program will enhance your competency and skills and deepen your understanding of Holistic Iridology®. Students who have completed Levels I and II are eligible to participate. Level III is a prerequisite for taking the iris analysis exam to earn your Diploma of Holistic Iridology®.

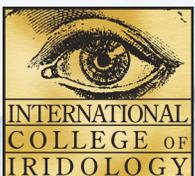

What You Will Learn in Level III

- Functional integration of the information learned in Levels I and II
- Proficiency and confidence to practice as a Diplomate of Holistic Iridology®
- Extensive training and various protocols for making an accurate clinical assessment
- Various lighting techniques for live examinations and digital iris photography
- Advanced correlation of the 18 Brain Reflex Areas of Holistic Iridology® to genetic memory patterns and the relationship of these areas to other tissue structures of the body
- Various lacuna structures and their relative indication of tissue function and predisposition
- Dr. Pesek's special techniques for assessing the true brown iris and black-brown iris
- Integration of all iris signs into a comprehensive interpretation of a person's limiting issues to be healed
- Advanced information on iris topography and structure
- Conditions found in the GI tract relative to color
- Hereditary typing and sub-typing for predispositions and symptoms
- Extensive training through viewing and discussing hundreds of pairs of eyes with lateral/medial lighting
- Aging and warning signs seen in the iris, sclera, pupil, cornea, and conjunctiva
- Heterochromatic markings and metabolic pigments
- Assessment of conscious and subconscious thought and emotional patterns revealing predispositions that can lead to degenerative conditions
- Overview of pupillary shapes and sizes
- Expanded constitutional typing and subtyping integrating information from Pesek, Deck, and Angerer
- Sclera indicators and their interpretation relative to thought, emotion and tissue health
- Understanding of the interrelationship between iris, sclera, pupil, cornea, and conjunctiva indicators
- Uncommon abnormalities and conditions of the iris, sclera, and pupil
- Techniques for building a practice of iridology or integration into an existing healthcare practice
- Detailed assessment techniques for creating a comprehensive, clinical, Holistic Iris Analysis Report for your client with 150 specific evaluations

Other Important Points

- Total of 40 hours of lecture and demonstration
- You will receive a study manual with supplemental advanced study material via download
- Demonstration of *Dr. Pesek's Holistic Iridology® Iris Analysis and Reporting System* software
- Special video presentation of the *Pesek IrisCam MultiFlex*

Upon successful completion of the online written exam, the student will earn a certificate for the study of **Advanced Holistic Iridology®**.
